WHITE SULPHUR SPRINGS,
POWELL'S FORT, SHENANDOAH COUNTY, VA.
THE proprietors of these Springt are prepared to receive and accommodate visiters. This delightful Watering place is situated eight miles east of Woodstock, between the Fort and Mansanutten Mountains. The new Building (one hundred lect in length,) commenced last season, has been completed, and is ready for the reception of HOARDERS; and a number of Cottages, or the use of Families, have been erected convenient to the boarding apartment.

These SPRINGS consist of White, Blue and Black Sulphing, Chalteraty, Linkstone and Slate, all having their fountains within a circumference of thirty yardsithe work of Nature's own labratory. They send forth a sufficient quantity of puse water to supply many thousands of persons daily. They are situated in a flat, or rather basin, the ground gradually rising to the south and east until it reaches the western base of the Mansanutten, from which is presented to the eye of the beholder one of the most enchanting landscape views in the country. To the south, south east, and east, there are a number of mounds, rising up at distances of from 25 to 100 yards, and from 25 to 100 feet above the level bottom in ront and to the north-west of the Springs. Many of these elevations can be approached from the east or rear, by a gratic ascent. The Fort Mountain, with its picturescape senery, its justing spuis, its deep ravines, and its lotty peaks, presents a panotama, which, for bold outline and pleasing variety, is is umburpassed by any mountain scenery in Virginia. In deed, the scenery presented to view from the summits of the Mansanutten and Fort Mountains, embracing the Page and Warren and Shenandoan Valleys, must be seen to be appreciated.

The celebrated Mountain Spring, 160 yards distant; 2. The Cold Spring, a short distance from this; 3. Immediately above is a Chalybeate, sending forth a limpid stream; 4. To the south from the Springs, about three quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring. The new Spring recently opened amid the beautiful group of willows that shade the Sulphur Springs, and which is believed to possess peculiar medicinal qualities, completes the list.

and which is believed to possess peculiar medicinal qualities, completes the list.
Viniters coming from the North or East, can enter the
picturesque valley through the narrow passage formed by
the proximity o. he mountains, about tweive miles to the
north-east from, he Springs. The rugged grandeur of this
natural defile, the tocks towering to the very clouds,
strikes the traveller with awe and admiration.
On arriving at the Springs, the invalid has at once withdrawn from the cares and perplexities, toils and monotony
of the busy world, and may recuperate his exhausted energies by quaffing the pure waters that incessantly flow
around him, and partaking of the rich viands that are daily
prepared for the nourishment of his frail body.
We will state, for the benefit of those who may not be
aware of the fact, that we own a large farm attached to
the Springs, where persons can have their horses pastured
or stabled as they may prefer.

The Bas will be furnished with the choicest Liquois,
Cligars, Tobacco, &cc.

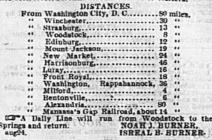

The BAR will be considered with the choicest Liquois, Clgars, Tobacco, &c.

An attentive outler will be in attendance, and servants to the different departments of the house; and everything that be done that can contribute to the connect of the

guestic.

Persons visiting the Springs from the North, can leave
Baltimore in the morning, and arrive here the next morning, by the way of Winchester and Woodstock. Persons
from the South, will leave Staunton in the morning, arrive
at Woodstock to dinner, and the Springs to tea.
For the amusement of those who may wish to participate in such exercises, a Ten Pin Alley has been erected.
A Bath House, with everything requisite for Bathing,
has been erected for the accommodation of visiters.

LIVER COMPLAINT AND SALT RHEUM.

New Yors, July 27, 1842.

Mesars. A. B. & D. Sands,—Gentlemen:—Words can but feebly express my opinions, in conveying the pleaning intelligence that my write is restored to portect health by the use of your invatuable Sarsaparilla. She was afficted with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the head, face, and body were covered with scales like those of a fish; the hair fell out in large quantities, and watking caused the most excruciating agones, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, connected with general debility, and a proastration of the nervous system. Physicians, both in Europe and America, had exhausted the usual iemedies, without effecting a cure, or scarcely affording reiner, and the best medical skill was unavailing, until she happily shed your Sarsaparilla. The disease was pronounced sait rheum, but her whole system, internally and externally, was altogether deranged; but so complete has been the cure, after using the Sarsaparilia for six weeks, and taking in all less than one dozen botties, that she now enjoys better health than for years previous to taking the Sarsaparilla.—My object in making this communication is, that all who have suffered as she has, may know where and to whom to apply for reilef, (and that not in vain.), as a complete cure will be the result. My wite unites with me in heartielt thanks; and believe me, gentlemen,

Yours sincerely,

City and County of New York, SS:—Ferrier Nazer, being duly aworn, doth depose and say; that the foregoing statement, to which he has subscribed his ame, is true and accurate, to the best of his knowledge and belief.—Sworn and subscribed this 27th day of July, 1839, before me,

C. S, WOODHULL, Mayor.

Extract from a letter received from a Physician in Md.
Cambridge, Md., Oct. 6th, 1859.

Messys. Sands, Gentlemen:—My little daughter was afficted for a long time with Sore Head and Lyss, and by using your Saraparilla, was perfectly cured, other medicines and Sarsaparillas having failed to relieve her. Having used it and tested its efficacy. I now confidently recommend it in preference to any other, as it seems to possess properties not contained in any other preparation; and I find that purchasers after they have used it, invariably want the same article again, whenever they require a medicine for which this is recommended. Respectfully yours, which this is recommended.

### REAL FIRE PROOF SAFES. MORE PROOF OF THE SUPERIOR QUALITY OF MESSRS. BURKE & BARNES CELEBRATED FIRE PROOF SAFES.

THE character of these Safes, in St. Louis, was before so well established, that any further test or proof of the fact of their being superior to all others, would have been innecessary; but in order to accommodate Mr. Hall, the patentee and maker of "Hall's Patent Concrete Safes," which has burnt up all other makes of any note in the United States, (Wilder's patent included,) we took up his challengs and the result is given below by the Committee who superintended the burning of the Safes. We only regret that they were not left in the furnaces two hours longer.

The Safe which we tested is to be seen at our Store, and we invite the public to call and examine it as we feel confident that no one will ever doubt their fire proof qualities after having seen the specimen which passed through the ferry ordeal on the 16th of June.

Sole Agents for the Manufacturers, No. 13, Levee, and No. 26 Com. Street.

The undersigned, a committee appointed by E. Hall, on behall of Hall, Dodd & Co., of Cincinnati, and Mesara R. R. Violeti & Co., as agents of Mesara. Burke, Barnes & Co. of Pittshing, to test the fire proof qualities of the safes mide by their respective principals—report, that we have this day subjected a Safe of sach manufacture, of similar size, which had been in we two years, in ovens to a fire made with dry oak wood, and Pittshurg stone.coal, for the space of five and a halfbours, and during that time we believe the heat applied was far greater than that in any ordinary conflagration—that at the expiration of that time, on taking the safes from the furnace, and cooling them down, we found that the iron casting on both was in places builty burnt off, but that the books were uniquired; and on opening, the safes we bend books and papers entirely uniquired, except slightly oy the water used in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the inferior was that the varnish on the wood-work of Burke & Barner's safe was entirely uniquired, while that on Hall, Doad & Co.'s, was blistered and blackened. In conclusion, we would remark, that from the result of this test, we have no healts tion in recommending the safes of both parties to the confidence of the public.

These Reprints have now been in successful operation in this country for teaching years, and their circulation is constantly on the increase notwithstanding the competition they encounter from American periodicals of a similar class and from numerous Eclectrics and Magazinea made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interest the state of the

interruption.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand conlessedly far above all other journals of their class. Blackneed, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, which the masterly are the content of the con Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its colums both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer,)" My Peninsular Nedai," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs. Scott & Co., so that Subscribers to the Reprint of the Magazine may always rely on having the carliest reading of these fascinating tales.

Robert Sanderson, Justice of the Peace in Rush Creek township, Fairfield county, Ohio, and brother of "Major General Sanderson," an officer in the war of 1812, cured of Consumption by the use of "Wistar's Halsam of Wild Cherry."

Rush Creek township, Fairfield co. Yeb. 25, 1832.

Dear Sir:—As I consider that my life has been greatly prolonged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry." I will state the symptoms of my case, that others similarly afflicted may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restices at nights, and had great night sweats, perspiring, I should say, at least two gallons a night, wetting the bed completely through. I had not been able to work for scars. But I was much emaciated, and almost helpless when I commenced using Wistar's Balsam of Wild Cherry. I have used in all I3 bottles, Jand I am now free from all those complaints, for my health is good.

I am now 65 years old, and have not taken any of the Balsam since 1846, because my health is so good as not to require any medicines. But if I should have any return of my former symptoms, I should use Wistar's Balsam of Wild Cherry. I procured the medicine of Messrs, Fall & McCracken, your agents in Lancaster, Ohio.

His preparation domains all the restorative properries of the tools, combined and concentrated in their utmost stringth and efficacy.

Experiments were made in the manufacture of this medicine until it was found that it could not be further improved.

Accordingly, we find it resorted to almost universally in
cases of Hepatic, Scorbuic and Cutaneous complaints for
general prostration of all the vital powers, and all those
tormenting diseases of the skin so trying to the patience
and so injurious jo the health.

Dr. Guysott—Dear Sir:—I send this to certify to you that your Extract of Yellow Dock and Sarsaparilla has per formed one of the most wonderful cures on me that has ever been affected on man.

I have been afflicted for forty years with irruptions on my legs and feet; in 1848 they got so bad that had to go on crutches, and in 1849 I had one leg amputated above the kine. In about 9 months after my other leg broke out in large eating and running sores from my knee to my foot, and discharged agreat deal of offensive matter, and at the same time my left hand broke out in large running sores nearly to my elbow.

treated day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my remains.

In October last my son brought me one of your bottle. Wrappers, I read it, and found record of some wonderful cures performed by your "Extract of Yellow Dock and Sarsaparila." I sent and got two bottles of it, and commenced taking it. In two weeks to my great astonishment, my sores all become easy, and I could sleep all night, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by enchantment. I have now used in all eight bottles of your "Extract of Yellow Dock and Sarsaparilia," and I now consider myself well. I am at a loss for terms to set forth the worth of this medicine, or to express my statistic for the tworth of this medicine, or to express my to set for the health of the militation of the afflicted to try this medicine, for I believe it will cure any known disease in the word.—Lay aside all prejudices and just try it, and proclaim its great worth to suffering mankind and current them to take it, for it will cure them.

My case is well enown in a large portion of South Carolina, Georgia and Alsabama, and if any should doubt the above cure, I invite them to call on ne, and I will show them the scars. I can be found in Talla, On a Co., Alsabamo one mile from Stee's Ferry, BENEJAH HUGHES.

Messra. Scoville & Head:—This is to certify that about the first of February last, I was afflicted with three or four painful soires on and about the face, some of them as large as a quarter of a dollar, they assumed the appearance of Cancers, and I was fearful they would terminate in Cancers. About three weeks since I cammenced taking "Boctor Guysott's Extract of Yellow Bock and Sarsaparilla," and found immediate relief from its use. I have not taken quite two bottles, and the sores on my face are all healed up; and those on my neck are nearly so; and I truly believe they will be entirely well in a few days. I cheerfully recommend "Dr. Guysott's Extract of Yellow Bock and Sarsaparilla" to persons afflicted with any kind of cruptions, or cancerous sores. My general health is much improved by the use of the medicine.

Mechanics, Manufacturers and Inventor

Mechanics, Manufacturers and Inventors.

THE Element Volume of the SCIENTIFIC AMERICAN Commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a hige character at home and abroad.

The Publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are: Givil Engineering, Agriculture, Railroads, Bridges, Agricultural Implements, Manufactures of Metal, Fibrous and Textile substances, Mariamerry for the purpose, Chemical Processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Gara, Carriages, Water-wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical linateuments, &c., besides Chaims of all the Patents, Reviews, Notices of New Inventions, A meritan and Forogn. The work is in form for binding, contains secret hindred Ragraving, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engraving in its columns, thus making the paper a perfect Mechanical Hnyclopedie for future as well as for present reference.
